INDEPENDENT ANALYSIS ASSIGNMENT-DIVORCE RATES IN SOUTH AFRICA

Dear Ms Chama, Mr Spratt and Dr. Shale,

I hope you are well.

Please find attached my submission of my second Power BI assignment which analyses the divorce rates in South Africa from the year 2021 to 2023. My data highlights insights that deal with divorce rates during this period and will answer the question as to whether there is a statistically significant association between female occupations and grounds for divorce with the aim to highlight trends.

I look forward to presenting my findings and reviewing them with you.

Kind regards,

Chibesa Mubanga.
