

Subject: Data Analysis - Boyd_Malambo.

Dear Ms. Clemens Chama, Mr. Darren Spratt and Dr. Moliehi Shale,

I hope this email finds you well. I am writing this email to give you an overview of my project.

This is an analysis on the economic growth of 8 different countries from the Organization for Economic Co-operation and Development (OECD). In this analysis I took a close look at the role of investment, inflation stability and foreign direct investment.

The analysis ought to answer the question of how investment impacts/ affects economic growth in these countries. This is so that we can be able to determine the relationship between economic growth and investments and how we can maximize investments to drive growth in the economy and how best we can boost investor confidence.

Kind Regards,

Boyd Malambo .
